

DC Health's Cardiovascular Team aims to provide an overview and status update on **DRAFT** Strategic Plan to reduce heart disease and stroke risk in the District, focusing on key themes, challenges, and preliminary recommendations. Additionally, feedback gathered on ways to achieve strategic goals from residents, providers, health insurance companies, and community organizations. Lastly, participants have learned about current DC Health Communications and Health Promotion campaigns. Participants were able to provide live feedback on how to make these more visible within the community.
