Included in this document is the quantitative and qualitative measures that we will utilize in order to effectively evaluate the Health Literacy of the CBO's involved in this project.

Health Literacy Proposed Assessments

Howard University MPH Evaluation Team

Consent to Participate

I volunteer to participate in the evaluation of the Advancing Health Literacy Intervention conducted by DC Department of Health and Howard University. The purpose of this assessment is to collect information on the health literacy practices that happen within your community-based organization. My participation in this project is voluntary. I may withdraw and discontinue participation at any time without penalty. I understand that if I feel uncomfortable in any way during the assessment, I have the right to decline to answer any question or to end the assessment. I understand that the researcher will not identify me by name in any reports using information obtained from this assessment, and that my confidentiality as a participant in this study will remain secure. Subsequent uses of records and data will be subject to standard data use policies which protect the anonymity of individuals and institutions. This precaution will prevent my individual comments from having any negative repercussions. Any summary content, or direct quotations from the assessment, that are made available through academic publication or other academic outlets will be anonymized so that you cannot be identified, and care will be taken to ensure that other information in the assessment that could identify yourself is not revealed. I have read and understand the explanation provided to me. I have had all my questions answered to my satisfaction, and I voluntarily agree to participate in this study. For further information, please contact the Health Literacy Howard University Evaluation Co Director Alicia S. Anderson, PhD: as anderson@howard.edu

☐ I do not consent to	participate and o	pt to end this survey	. □ I	consent to p	participate

Introduction

This survey is about the health literacy practices that happen within your organization. Health literacy practices are all client or resident-centered care activities and protocols that involve making sure clients or residents can understand and act on health-related information provided to them.

Choose one answer for each question unless directed otherwise. Please answer honestly; your individual responses will only be seen by the Howard University Evaluation Team.

Individual Health Literacy Practices

The first set of questions asks you about health literacy practices YOU may do during your job.

1.	I know how t	to identify, pi	repare and simp	lify written mater	ials so they a	re easier to read.
	□ Always	□Usually	□Sometimes	□Rarely/Never	□Not sure	□Not applicable for my role
2.	I use clear or specific and		ation technique	s (e.g., use plain l	anguage, eve	ryday words, limit to 3-5 main points, and information is
	□ Always	□Usually	□Sometimes	□Rarely/Never	□Not sure	□Not applicable for my role
3.	I have receiv	ed awareness	and sensitivity	training about he	alth literacy i	ssues.
	□ Always	□Usually	□Sometimes	□Rarely/Never	□Not sure	□Not applicable for my role
4.	I ask clients of information.	or residents to	o state key poin	ts in their own wo	ords (i.e., teac	h-back method) to assess understanding of health
	□ Always	□Usually	□Sometimes	□Rarely/Never	□Not sure	□Not applicable for my role
5.	I encourage of any question		dents to ask que	estions by using th	nese words: "	What questions do you have?" instead of "Do you have
	\square Always	□Usually	□Sometimes	□Rarely/Never	□Not sure	□Not applicable for my role

6.	I work with clients or residents to discuss priorities and develop action plans to promote changes in behaviors or practices.

		1	Health Literacy Environment	;				
	This survey addresses culture and language through the lens of health literacy. Please note, this is not an exhaustive list of important culture and language items. We've chosen several items specifically related to health literacy. Consider the following items to rate the frequency with which each item is practiced. The number of points is indicated for each response. Items 1 through 9 require a rating of the frequency with which an item is practiced. Enter the number of points in the appropriate boxes.							

Scoring Guidance for Frequency Rating and Score

Rating Score Example

- 0: Never This is not practiced as yet.
- 1: Rarely This has been practiced only once or twice OR in one or two units. Less than 25% of the time.
- 2: Occasionally This is practiced from time to time but not on a regular basis. Less than 50% of the time OR in fewer than half of the units.
- 3: Frequently This is practiced on a regular basis. More than half the time [about 75% of the time] OR in most units.
- 4: Always This is an institutional expectation. Practiced with a goal of 100%.

Culture and Language

Directions: Please rate the frequency with which each of the following is practiced. Enter the number of points in the appropriate box.

in the	арргорпасс	JOX.			
Culture and Language Items	Never 0	Rarely 1	Occasionally 2	Frequently 3	Always 4
42. Communication provided by the organization shows awareness of and respect for diversity (avoiding stereotyping, using culturally appropriate pictures, words, and examples).					
43. Language services are available or can be called upon with short notice.					
44. Children or untrained people are prohibited from serving as interpreters.					
45. Forms are offered in languages other than English.					
46. Webpages can direct users to pages written in their primary language.					

47. Orientation/training sessions for staff including information about the patient population (cultures, languages, and other demographics).			
48. Orientation and/or training sessions for interpreter staff includes information about literacy and health literacy skills of the populations they work with.			
49. Orientation and/or training sessions for interpreter staff includes information about health literacy insights for best practices.			
50. Training sessions for staff include information on how to access, use, and document interpretation services.			
51. The organization offers staff opportunities for Adult Basic Education classes (ABE) or English for Speakers of Other Languages (ESOL) courses to build literacy skills.			

Part 2: Orientation, Development, and Expectations

Directions: Indicate the extent to which each item is practiced. Enter the number of points earned in the appropriate box.

Staff Orientation	Never 0	Rarely 1	Occasionally 2	Frequently 3	Always 4
52. New staff are offered orientation programs.					
53. New staff receive information about health literacy and plain language best practices through orientation presentations and/or written materials.					
54. New staff receive information about available resources (such as resource room, library, learning opportunities, on-line programs, language services) through orientation presentations and/or written materials.					
Staff Development	Never 0	Rarely 1	Occasionally 2	Frequently 3	Always 4
55. The organization provides training for staff about health literacy issues & practices for the design of print materials – as is relevant to their work.					
56. The organization provides training about health literacy issues and practices for clear verbal communication (such as "teach-back" method) for staff and volunteers.					

	57. The organization offers opportunities for staff engagement in health literacy initiatives.
